What an incredible experience! The very first time that I spoke with Creative For Kids I could tell that this company was professional, friendly, and wanted not only to do business, but wanted to do "ministry" too. The planning stage was very smooth. CFK asked all the right questions to help direct them on the right path to what we wanted as a Church. The art work was proposed in a timely manner with complete directions and scales to help understand the potential of the product. They hit the target right on the bulls-eye! We were so excited from the very first proposal. As we continued to work out the kinks, CFK remained patient, helpful, clear in communication, and quick.

Finally the day came for their arrival. From their first step on property to the last touch of paint on the walls it was a tremendous privilege to work with Randy and CFK. They were precise and diligent in their work, yet always took time to talk ministry, ideas, and needs. While they were here we even added to the project, extending their work of design and artistry. We're so glad we did – it gave an even better look to what was already proposed! They worked hard and finished in the time frame they had originally told us they would.

The children, parents, and families of our Church are so thankful for the space we have for the Children's Ministry. We have already had the opportunity to recommend CFK to two other Churches who absolutely love what they did for our Children's floor. We cannot speak enough positive remarks to help you understand you should go with this company for all your creative mural needs.

Thank you Randy and CFK for your hard work in giving Mikado Baptist Church a phenomenal identification to our Children's Ministry.
